Speaker:

Oh no! It's that time of year again...Winter!!

Winter brings with it lots of unwelcome conditions like snow and ice, slippery wet floors, and unkept entryway rugs. UGH! Prime suspects in visitor, worker, and patient slips, trips, and falls. If an individual fell today in your hospital atrium or your clinic parking area do you know what to do, who to contact, and how to work with the injured person? What type of information should you gather immediately after the incident?

Whether you are new to risk management or a seasoned veteran or an attorney, knowing what to do after a premise fall is important to understanding what happened, crucial in determining liability exposure, and essential in the defense of unfounded claims.

We hope you can join us February 12, 2025 at 10:00am for this webinar on **Premises Liability; Helpful Investigation Insights** presented by Aaron P. Ryan, Partner at Hall Prangle & Schoonveld, LLC.

Objectives:

- List what a plaintiff must prove for a slip and fall.
- Describe what a risk manager should note and what evidence to preserve during a slip and fall investigation.
- Discuss strategies to implement at your facility that can assist in the defense of premises liability claims.

Agenda:

10:00	Welcome and Introduction	Mary Stankos, PhD, MJ, RN, CPHQ, CPPS Assistant Vice President, Risk Management, IRMS
10:05	Premises Liability <i>Helpful Investigation Insights</i>	Aaron P. Ryan, JD Partner, Hall Prangle & Schoonveld, LLC
10:55	Q&A	
11:05	Adjournment
