Confront an AI-Enabled Cyber Attack with Confidence.

Cyber criminals are increasingly exploiting artificial intelligence (AI) to worsen the impact of an attack. This year's exercise is your opportunity to train and assess organization-wide readiness in confronting this timely issue.

Benefits of Participating

- ▶ **Strengthen response**
- ▶ **Test processes**
- ▶ **Enhance readiness**
- ▶ **Assess implementation**

Exercise Facilitators

Stephen Weiler, IPED, MEP, CPP, CPD
Manager of Resiliency Services,
Tarian

Keneatha Johnson, MPH
Assistant Vice President, Safety and
Emergency Preparedness, IHA

Reduced Registration Fees

We are offering this year's statewide exercise at the same reduced rate as last year to ease the burden on your budget.

Designed for:

- ▶ Emergency Preparedness/Management
