DESIGNED FOR

- ▶ Emergency Preparedness/ Management
- ▶ Information Technology
- ▶ Risk Management/ Legal
- ▶ Hospital Administration
- ▶ Hospital Operations
- ▶ Facilities/ Engineering
- ▶ Clinical Nursing
- ▶ Physicians
- ▶ Media Relations
- ▶ Security

TEST YOUR CORE CAPABILITIES

With hospitals a top target of cyber actors, IHA's exercise will present a quickly developing cyber disruption scenario impacting operations. Your team will test core capabilities: immediate recognition and readiness, operational impact and response, and long-term recovery and resiliency.

BENEFITS FOR YOUR HOSPITAL

- ▶ **Strengthen** efforts to coordinate response activities
- ▶ **Gain insights** into maintaining clinical operations when patient care equipment and resources are impacted
- ▶ **Learn** strategies to continue communications throughout the disruption
- ▶ **Assess** how to restore services to operational functionality

EXPERT PRESENTERS

Stephen Weiler MS, MEP, CPP, CPD
Manager of Resiliency Services, Risk, Consulting and Training, HSS, Inc.

Keneatha Johnson, MPH
IHA Senior Director, Safety and Emergency Preparedness

Cyber incidents are on the rise. Fortify your response plans.
