- ▶ Emergency Preparedness and Management
- ▶ Clinical Staff (Nursing, Physicians)
- ▶ Operations
- ▶ Security
- ▶ Facilities and Engineering
- ▶ Environmental Services
- ▶ Information Technology
- ▶ Administration and Senior Leadership
- ▶ Communications and Media Relations
- ▶ Risk Management and Legal

Ready Your Organization for a Mass Casualty Event

Centered on a mass casualty incident (MCI), IHA's exercise will present a commercial aircraft emergency landing near a hospital. This scenario will offer a chance to train for and assess organization-wide readiness for any MCI.

Benefits of Participating

Strengthen efforts to execute MCI activation protocols

Gain insights into MCI patient surge response

Learn strategies to maintain safety for staff, patients and visitors

Fortify plans for family reunification services

Assess implementation of recovery and resiliency plans

Exercise Facilitators

Stephen Weiler, IPEM, MEP, CPP, CPD
Manager of Resiliency Services
Tarian

Keneatha Johnson, MPH
Assistant Vice President
Safety and Emergency Preparedness
IHA

NEW FOR 2025: Reduced Registration Fees

We **decreased participation fees** to help all hospitals and health systems attend this important statewide exercise.
