Jobs Supporting Working Families

Essential
to Illinois’ Economic Growth

2024 Economic Impact Report
Essential to Families

Essential to Illinois

The vital role of Illinois hospitals and health systems in community health and well-being is only part of the story.

Illinois hospitals and health systems are also:

- **Powerful economic drivers** for their communities and for Illinois, infusing **$117.7 billion annually** into state and local economies. They offer good-paying jobs for working families; create jobs in other sectors; and purchase goods and services in their communities.

- **Strong community anchors**, providing:
  - Economic development;
  - Neighborhood revitalization; and
  - Enhanced public health and safety through community partnerships.

- **Driving critical health equity initiatives to ensure access for all.**
### State Economic Impact

$117.7 Billion

Annual amount Illinois hospitals infuse into the state’s economy

For every dollar hospitals spend on payroll, supplies and capital, an additional $1.40 is generated in spending in state and local economies.

The Illinois Health and Hospital Association has modeled the full economic value of hospitals and health systems in the state of Illinois. Estimates of Illinois hospitals’ economic benefits were based on the Regional Input-Output Modeling System (RIMS-II), developed by the U.S. Bureau of Economic Analysis (BEA). The final demand multipliers, obtained from BEA RIMS-II were applied to 2022/2023 Medicare cost report data of hospital jobs and spending to obtain the “ripple effect” of jobs and spending throughout the economy.
Consistent Creator of Good-paying Jobs
Illinois Healthcare Employment

579,500

641,900

11% Healthcare employment as % of total Illinois employment

INCREASED their economic impact even when operating in the RED

Operating margin as % of net revenue (FY2022)

Operating margins are even lower for safety-net hospitals and academic medical centers.
